

PhD OPENINGS IN MEDICINAL CHEMISTRY

The Faculty of Pharmacy, Medical University of Lublin invites applications from outstanding candidates for PhD study in medicinal chemistry. A successful applicant will have a unique opportunity to work in the interdisciplinary environment aimed at preclinical drug development of new molecules of potential use in addiction and memory deficits treatment. The positions are funded by the TEAM program operating within the *EU Innovative Economy Operational Programme* framework.

The ideal candidate must have a Master Degree (or equivalent) in pharmacy, chemistry or biology, good record of University grades and evidence of previous activity in science. Authored research publications, conference communications and scholarships abroad will be additionally promoted.

PhD study require good interpersonal and English communicating skills, ability to perform computational modeling of molecular drug – receptor interactions..

Program TEAM assures good conditions: combined stipend for the PhD student is 4,400 PLN monthly plus founding of side visits in partner laboratories abroad.

Applicants are requested to e-mail the following documents (in English):

- CV;
- motivation letter;
- list of publications and conference presentations;
- copy of degree diploma(s);
- two letters of recommendation

to the program coordinator, Prof. Krzysztof Józwiak. team@umlub.pl +48-817564862.

The deadline for the application is **December 01st 2011**.
